MI, IN, FL

HIPAA
Compliant

U.S. Based
Customer Service

What We Do

We manage prescription drug programs for employers coast to coast. We facilitate a Personal Importation (PI) Program so your members can secure lower cost drugs from Tier 1 Countries.

Benefits of Elect Rx

- The ElectRx Program is voluntary.
- The ElectRx Program greatly reduces Rx costs for the Plan Sponsor & Plan Members.
- Plan members that participate have \$0 Co-payments.
- Savings will help preserve benefits and temper the need for contribution increases.
- ElectRx promotes medication adherence meaning less facility based medical claims such as emergency room and hospital admissions.

Why Elect Rx

Simple and Proven Cost Savings

The ElectRx Program is the addition of an international pharmacy option to your existing health plan. By using this new pharmacy, certain brand drug medications can be secured for a cost 40% - 70% less than the current pharmacy network. The existing PBM does not change.

Safe and Trusted

- ElectRx only uses Brick & Mortar pharmacies from Tier 1 countries: Canada, New Zealand, England and Australia to ensure the quality of the prescription drugs.
- All brand medications in original packaging.
- Cold Chain Custody Specialty Medications and insulins.

Customer Service

We provide transparent and reliable member service and pride ourselves on the efficiency and simplicity of our prescription process.
